Requirements clarification

Dear, John.
I've got several questions about requirements for the story #045.
Here they are:
1. Where the default image for photo view can be found?
2. What is thought of the day?
3. Where should we take thought of the day from?
4. What should be place in location, company, thought of the day, etc. fields, if the data is not provided.
5. What size exactly should be text?
6. Can you describe the information, that should the rest of fields contain?

Sincerely, Nikita Pekurin.

Dear, Victor.
Found out 4 bugs (including critical and blocker), while testing
Story#45. Feature is too fresh and not ready for release build.
Sincerely, Nikita Pekurin.
